

Education

MPSTME, NMIMS University	2023 - 2027
B. Tech in Information Technology	
CGPA: 3.58/4.0	
Sett Rustomjee Jamsetjee Jejeebhoy High School	
HSC: 81.16 %	2023
SSC: 60.46 %	2021

Projects

UrbanVoice – Civic Issue Management System (Hackathon Project | 2026)

- Built a **full-stack civic issue reporting system** with Flutter mobile app + React (TypeScript) admin portal.
- Implemented **role-based access control, real-time issue tracking, SLA monitoring, and analytics dashboards** using Firebase backend.
- Added **AI-based complaint categorization, geolocation routing, push notifications, and interactive reporting** for scalable civic management.

Tennis ATP Analytics & Prediction Dashboard - 2025

- Developed an **interactive Power BI analytics dashboard** analyzing ATP rankings, match performance, and head-to-head statistics.
- Designed **Galaxy schema data model** and built dynamic **DAX-based KPIs and visuals**.
- Integrated a **Python XGBoost model** within Power BI to generate **real-time match win probability predictions**.

Agro.ai – AI-Based Crop Disease Detection (Course Project | 2025)

- Built an **AI-based plant disease detection system** using ~87K images across **38 disease classes**.
- Used **MobileNetV2 feature extraction** and compared **Random Forest vs CNN classifiers**.
- Developed an **end-to-end ML pipeline** with TensorFlow & Scikit-learn and integrated **treatment recommendation outputs**.

Internships

IBM SkillsBuild Summer Internship – Data Analytics

June 2024 – August 2024

Completed a **6-week internship program** focused on Data Analytics concepts including data cleaning, visualization, and data-driven decision making. Worked with real-world datasets using analytics tools and developed insights through exploratory data analysis and reporting.

Certifications

- Microsoft SQL Server from Scratch – Udemy (2026)
- Agentic AI: From Learner to Builder – IBM SkillsBuild (2025)
- IBM SkillsBuild Summer Internship – Data Analytics (2024)

CORE SKILLS

Technical Skills:

Programming: Python, SQL, Java, C++

Data Science & AI: Machine Learning, Deep Learning, Predictive Modeling

Libraries & Frameworks: TensorFlow, Scikit-learn, Pandas, NumPy, XGBoost

Data Analytics & Visualization: Power BI, Tableau, DAX, Data Modeling, Dashboard Development

Development: React.js, Android Studio, Firebase, REST APIs

Tools & Databases: Git, Jupyter Notebook, VS Code, MySQL, Microsoft SQL Server

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Leadership, Time Management

Achievements and Activities

- Participated in **multiple hackathons**, including **inter-college and national-level competitions**.
- Developed **prototype solutions and technical models** during hackathons within limited timeframes.
- Actively involved in **Buildathon 2026**, focusing on rapid product development and innovation.
